STAY

Whether you're visiting Mykonos for the first time or returning for a trip with the girls, the island has an impressive range of accommodation, each bringing something unique to the table. The newest buzzworthy opening is Deos, a striking hilltop hotel just moments from Mykonos Town. Expect whitewashed buildings that blend into the surroundings, plenty of natural textures and an infinity pool you've probably seen on Instagram. The largest residence, Omega, sleeps up to five with an outdoor living area and panoramic sea views. Not far away is Kalesma, which feels like its very own village. Everything here oozes luxury, from the décor and the private dining experiences to the pool bar with its resident DJ spinning soft house tunes and poolside classics.
