Sustainability ENERGY SAVING • LED bulbs, motion-sensor lighting, freon-free cooling, energy-saving appliances. Transitioning to 100% sustainable energy by Oct 2024. Electric guest transportation. **COMMUNITY ENGAGEMENT** • Committed to sourcing materials from local and region

KĂLESMA

MYKONOS

 Committed to sourcing materials from local and regional businesses throughout its scope of operations, supporting their efforts in the process.

CONSERVATION & PRESERVATION

• Eco-friendly cleaning products and recycled toilet paper are used throughout Kalesma Mykonos.

FOOD MANAGEMENT

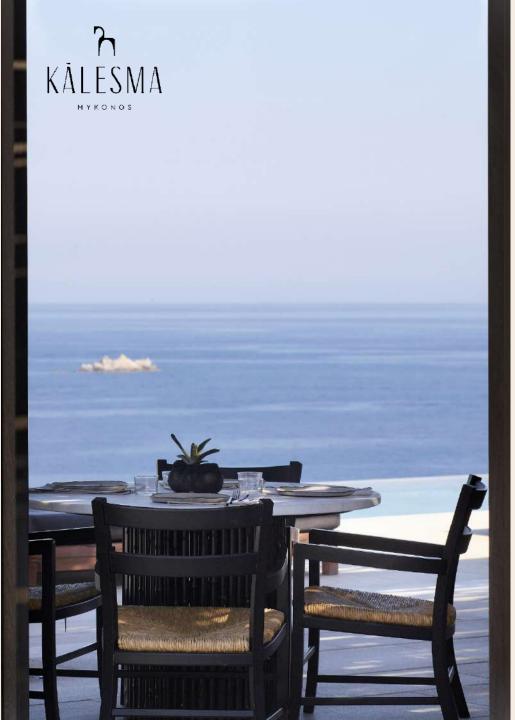

• Regional produce and locally-sourced materials are the protagonists throughout the hotel's food and beverage menu.

WASTE MANAGEMENT

• Asingle-use plastic-free hotel. The hotel forgoes the use of individually packaged toiletries and opts for refillable dispensers while recycling is always top of mind throughout all departments.

WATER CONSERVATION

• Washing machines are only loaded once they are at full capacity. Water-saving toilets have been installed throughout the hotel and rainwater is collected and repurposed in the watering of the gardens while the pool water recirculates thanks to a pump with filters.
